

Media, NAT, and QoS

One page pulled from the Canon rooms named in the source column. Open the room before you quote a number in a design. This is not a copy of a Cisco document.

Check	What the room says	Source
Which devices does nt6eyxb include?	Desk phones except DECT and ATA, Webex App, and Local Gateway. [cite:1]	T7-R03-codecs-media-nat.html
Is optimization on by default for the app?	Yes. The article says it usually needs no extra configuration. [cite:1]	T7-R03-codecs-media-nat.html
Name the four phases.	Candidate discovery, candidate exchange, connectivity checks, media path optimization. [cite:1]	T7-R03-codecs-media-nat.html
What minimum does that article give for CUBE?	17.3 or 16.12.5. [cite:1]	T7-R03-codecs-media-nat.html
Where does interorganization media go?	Through the PSTN. [cite:1]	T7-R03-codecs-media-nat.html
What happens to a recorded call?	Media goes to the cloud and is not optimized. [cite:1]	T7-R03-codecs-media-nat.html
Webex App optimized audio ports?	8500–8599. Video is 8600–8699. [cite:3]	T7-R03-codecs-media-nat.html
