

PSTN, BYOC, and trunks

Bring-your-own carrier in this lab means premises PSTN on a Local Gateway, or Cloud Connected PSTN where a partner is the carrier. It is not a fourth mystery option.

Item	What to remember	Source
Per location	One connection type.	t9xctu
Cisco Calling Plan	Cisco is the carrier.	T2-R02
Cloud Connected PSTN	A certified partner carrier.	T2-R02
Premises	Your trunk, your carrier, CUBE as the usual local gateway.	t9xctu
Registration cap	The Canon records 250 concurrent calls and CUBE only for registration trunks.	T2-R02
