

Security and compliance

TLS version, SRTP suite, and end-to-end encryption are three different sentences.

Item	What to remember	Source
TLS	1.2 and 1.3 for secure SIP.	jwkb2
Certificates	Server Authentication EKU. CN or SAN matches Control Hub without the port.	jwkb2
SRTP	AES_CM_128_HMAC_SHA1_80.	jwkb2
E2EE	Off by default. Not for PSTN. Recording disables it.	5h5d8ab
Proxy inspection	Apps trust an OS CA. Room devices and MPP phones need TAC to install a custom CA.	b2exve
